To whom this concerns,

It gives me great pleasure to recommend Confederation Log Homes. I can say with certainty, every member of the team, from sales, design, production to delivery exceeded our expectations.

They were diligent in providing us with top-notch service. Continuous effort was made to stay within our budget yet still provide us with the design we desired. Every phone call and email were answered quickly and professionally.

Months after final payment, they are still readily available to make the time to answer all our questions. Confederation developed more than just a business relationship with us. They truly made us feel as though our house was the most important project they had.

I can not say enough about the service. Every single bit of building material was delivered in perfect condition and on time.

Had I started researching Confederation Log Homes first, I would have saved months of time, as there was no need to look at the other four companies we studied.

A special kudos goes out to Rich, Andy and Rick for their continued support and inspiration.

Thanks gentlemen, for giving us the confidence, leading us down the right paths and seeing us far beyond completion. Can't wait to do it again!!

Please feel free to contact us if you have any questions.

Dave & Erika
