

Dear Rich,

Our cottage is awesome! We had so many people stop dead in their tracks in the middle of the lake to admire our cottage. The exterior log siding is stunning. Most people think it is a real log home.

The interior is equally as impressive as the exterior. Your designers did a tremendous job in designing spacious & well proportioned rooms. The hand crafted solid wood beams and trusses are the reason we came to CL&TF & we were not disappointed. Ours is grand in both scale and beauty. We made only a few small changes in the construction phase. We switched up some of the windows & moved the entry to make way for a pantry & 2 closets. We made one room cathedral and we put in 2 closets in empty wall cavities.

We are looking forward to celebrating the holidays in our new home away from home. We will have many happy memories there. It is everything we ever dreamed of and more. Thanks for helping to make that happen.

We hope you have a wonderful holiday & a happy new year.

Cheers

John & Dorothy

P.S.- stop by for a visit if you are in the neighborhood
